

AGC of Minnesota Lunch and Learn Series

Presents

MPCA Industrial Stormwater Monitoring Requirements

What: This informational session will help you understand the monitoring requirements associated with the new MPCA Industrial Stormwater Permit.

When: July 28, 2010—a **FREE lunch** will be served at 11:15 AM with the presentation starting at about 11:30 AM and running until approximately 12:30 PM.

Where: AGC of Minnesota office—525 Park St., Suite 110, St. Paul, MN 55103

This session will be webcast. Please contact Dan Hannan if you are interested in that option.

This session will focus on the monitoring requirements of the industrial permit as described in your Storm Water Pollution Prevention Plan (SWPPP). Come hear AGC of Minnesota member Bay West, Inc. describe how they are working collaboratively with the MPCA to develop guidance to comply with year 2 storm water sampling requirements. Topics presented will include:

- Advanced Planning—what to do before it rains
- Timing Issues—sample collection timeframes
- Sampling Considerations—locations and logistics
- Packaging and Testing—testing methods, techniques and laboratory considerations
- Review of Test Results—what do the numbers mean
- MPCA permit reporting, training requirements and enforcement considerations

The session will be presented by Ross L. Ohman, PE_{wt}, Bay West, Senior Project Manager.

To register please complete the section below and e-mail to Julie Moore at jmoore@agcmn.org or fax this form back to the AGC at 651-632-8928. All questions should be directed to Dan Hannan, Safety Director, AGC of MN at 651-796-2192.
